Banned books can expose you (or your child) to valuable ideas, thoughts, and people. Reading books that involve experiences outside of your ordinary life opens you to learning new things. These books can teach empathy, acceptance, and foster self-confidence. Every banned book you choose to read and learn from brings an important human voice back to life.

Why is it important to protect banned books?

The repercussions of banning books stretch way beyond the books themselves. Banning a book is the first step toward erasing not just someone's work, but their humanity and their surrounding culture. Banning books endangers tolerance and restricts free expression. Banning books is a step toward ignorance, intolerance, and hate. Banning books protects people in power by suppressing powerful ideas about liberation. Protecting books validates and supports others, increases empathy and understanding, and by doing so, can help build a better world and brighter future for us all. Together, we pledge to keep books safe and their ideas available to all.
